Guru-Om Dental Lab

helping you to restore your patient's smile...

In the heart of Ahilyanagar, (Ahmednagar) the Guru-Om Dental began its journey in 2019. Initially rooted in conventional practices, our founder Dr. Guruprasad Handal, a passionate Prosthodontist, foresaw a transformative shift towards digital dentistry. Recognizing the potential for innovation, we took a bold step and transitioned to a digital platform, marking the first of many pivotal moments in our story.

Our journey took flight with the acquisition of our first intraoral scanner in 2019, setting the stage for our commitment to embracing technological advancements. In just a few short years, we evolved from performing traditional dental work to becoming pioneers in the digital realm. Today, our lab boasts an impressive array of state-of-the-art equipment, including advanced CAD software, 3D printers, milling machines, and even a 3D metal printer (DMLS).

When we started, our team consisted of just seven dedicated individuals. Today, we have grown to a vibrant workforce of over 40 professionals, comprising prosthodontists, general dentists, qualified technicians, and skilled dental lab assistants. This growth reflects not only our success but also our commitment to quality and excellence in dental care.

Initially serving only the Ahmednagar city, our reach now extends to over 30 cities across Maharashtra, including Pune, New Mumbai, Nashik, Sambhajinagar, Solapur, Dharashiv, Dhule, and Amravati.

Our expertise has expanded significantly as well. While we once limited ourselves to basic dental prosthetics, we are now highly specialized in advanced procedures such as All-on-4, All-on-6 implants, basal implants, and full mouth rehabilitation, with exciting plans for patient-specific implants on the horizon.

GUROM Dental World

your trusted dental material partner...

At Gurom Dental World, we specialize in the trading and distribution of premium dental materials for Dental Clinics, Dental Laboratories & Dental Institutions. Our extensive product range includes high-quality dental supplies sourced from trusted manufacturers both within India and internationally.

Let's Start!

As we reflect on our remarkable journey, we are deeply grateful to our esteemed clients—dentists who have trusted us and collaborated with us throughout this evolution. Your support has been instrumental in making Guru-Om Dental Lab the largest emerging digital dental lab in Central Maharashtra. Together, we look forward to shaping the future of dentistry, driven by innovation, quality, and an unwavering commitment to our patients' smiles. Thank you for being a vital part of our story.

Regards,

Dr. Akshata Handal
